DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4, 6-11, 13-18, 21-62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Riebe (WO 99/06303) in view of Bryant et al '085.

Riebe lacks the sealing ring 9 having a first and second wiper portion. Bryant et al '085 show a sealing ring (figure 2d) having a first and second wiper portion 213 to provide multiple sealing surfaces (column 8, lines 7-8). It would have been obvious to one of ordinary skill in the art to have modified the Riebe sealing ring with a first and second wiper portion as taught by Bryant et al to provide multiple sealing surfaces.
